Foreign domestic workers live their lives in service of others, far from their loved ones. This project grew out of our desire to serve them in return, humbly and in love (Galatians 5:13). We wanted something practical for the day-to-day, yet also useful to our helpers beyond the sphere of their employment. Everyone who contributed to the translations and illustrations did so whole-heartedly and freely. We hope that these guides will bless our helpers in knowledge and skills, and that they in turn may bless others even after they leave us.
